The story of its association with the American navy is a naval episode, unlike most of the naval episodes which find their way into print. It sheds a new light on navies and the purposes for which navies are created. For the highest purposes which call navies into being, are not the purposes of international friendship. The navy is the nation's finest diplomat.

American naval forces first went to the Azores in this war in September, 1917. Commander Hugo Osterhaus, in the United States ship Marietta, and Lieutenant-Commander Dean Causey, commanding Division Four, of the American submarine flotillas, along with two converted yachts, the United States ships Margaret and Galatea, were the United States Navy's advance guard at Ponta Delgada.

NO CHEAPER FINANCING

This plan, it was argued, would provide cheaper financing, give stability of income to security owners, promote efficiency of operation through sharing profits, remove railroad operation from partisan polities, compose conflicts between Federal and State authorities, keep rates at a minimum, eliminate complications in rate schedules, and provide a means of making communities benefiting by extensions pay for them. The corporation would be subject to regulation by the interstate Commerce Commission, which would retain its present regulating powers.

The hrotherhoods objected to the railway executives proposal for establishing a secretary of transportation, saying this would constitute "regulating the people in the interests of capital." Dr. Wellington Koo Declares Bargain With Tokyo as to Former German Concession Was Forced From China at Cannon's Mouth.

IBy Associated Press.l PEKING, Feb. 7.—Attempts are being made by the Japanese to induce the Chinese government to disayow the conference for the reason that they are seriously embarrassing Japan, according to semiofficial Chinese sources

This development has caused depres sion over the situation in government circles, which had previously been Jubilant over the strong stand taken by the Chinese in relation to the Japanese claims.

This depression is intensified by the fact that the government is hard pressed for money, and may, it is said, yield to the Japanese wishes in order to obtain the needed funds. CHIEF ISSUE DISPOSAL OF FORMER GERMAN CONCESSIONS The chief issue between China and

Japan' that has arisen in connection with the war settlement is over the disposition of Tsing-Tao and its harbor and adjacent territory in Shantung Province, the former German concession in China.

Japan, on entering the war, captured the territory, which she has since held. China's desire, as expressed by her delegates at Paris, is to get this territory back. Reports from Paris have indicated that Japan desired to retain Tsing-Tao harbor, but had offered to

All over Virginia we hear of men and women who have been sick, weak, run down, and through the use of Dreco are now well, strong and hanns For instance, Mr. Eli Brunk, one of the most substantial citizens of Harrisonburg, Va., says: "I had been weakened, run down, low state of health; my food did not digest well; I felt tired and weak most of the time and my rest was broken at night. Since taking Dreco my food digests well, and furnishes strength to whole body. I feel stronger and bet-ter than in a long time, and I am confident that Dreco will build up one who is weak, nervous and run down like I was."

The symptoms of a deranged stor ach frequently take the form of head aches, backache, indigestion, constipa tion, dyspepsia, coated tongue, breath, effected liver, kidneys or matism. These symptoms yield readily to the new herbal stomach remedy,
